## BAMBERGER POWER PLANT

STRUCTURE AND MACHINERY IS  
TO COST \$200,000.

Sub-Station to Be Erected at Ogden  
Will Call for an Outlay  
of \$25,000.

The managers of the Salt Lake &  
Ogden railway make the statement  
that the work of constructing a power  
plant at Lagoon has begun, and that  
it will be pushed with all possible  
speed, the object being to electrify the  
road between Ogden and the capital  
city at an early date. They claim that  
the road will be electrified by the  
first of the year.

The plant near Lagoon will cost in  
the neighborhood of \$200,000 and will  
be modern in every respect. There  
will be sub-stations at Lagoon, Stock-  
dale, Clearfield and Ogden that will  
cost not less than \$25,000 each. The  
trouley wires will be in place on the  
road within a few weeks' time, and  
the cars will arrive within sixty days.  
Sidney M. Bamberger, in discussing  
the matter, has the following to say:  
"There will be ten motor cars, con-  
taining each four 100-horsepower mo-  
tors. Every car will have automatic  
air brakes, and will be of the palace  
car variety. In fact, these new cars  
are the highest type of electric cars  
yet turned out in the United States.  
They represent the very top notch of  
electrical development in car build-  
ing."

"Except for the central power sta-  
tion, the road would be ready to run  
by the end of this month if we wanted  
to rush it somewhat, but of course all  
the rest of the line, although prac-  
tically done, must wait till we can  
turn on the juice."

"In Ogden we have double track  
steel bridges of the best and latest  
type. In fact, these bridges are the  
largest of this type used by any steam  
road in this country. The stone work  
is nearly finished. The steel will ar-  
rive in forty-five days."

## SAN FRANCISCO IS CELEBRATING

San Francisco, Oct. 21.—Like the  
first day of the Portola festival, today  
dawned beautiful and sunny, after a  
night of showers and long before the  
city and industrial parade had passed,  
the record-breaking crowd that  
lined the streets was ready to seek  
the shade. The parade, headed by  
Don Gaspar de Portola and Queen  
Vergilia, was the greatest affair of  
its kind ever witnessed in this city.  
Twenty thousand persons, represent-  
ing virtually every fraternal, munici-  
pal and industrial body of the state,  
were in line, and as a cosmopolitan  
feature it was the equal of the mili-  
tary parade of Tuesday, in which  
many nations were represented.

The international division was the  
most interesting of the parade. Its  
most spectacular display was made  
by 2,000 marching Chinese carrying  
the largest fire-breathing dragon ever  
imported. The Oriental section of the  
international division was a gorgeous  
display of colors, but the other nations  
participating were almost as pic-  
turesque. The Spanish war veterans,  
headed by General James F. Smith,  
former governor general of the Philip-  
pines, and commander of the First  
California volunteer during the  
Spanish-American war, carried the  
huge American flag which was made  
for the Hudson-Fulton celebration.

The distinguished guests of the  
city, including foreign consuls, may-  
ors of other California cities and other  
officials rode immediately behind  
Don Gaspar de Portola and Queen  
Vergilia, each of whom was borne in a  
separate chair. The band, led by  
the passing of the parade, in-  
terest was centered on the Old Mis-  
sion Dolores, the first church found-  
ed in northern California. Here the  
Franciscan Fathers, successors of the  
Padres, who founded the mission, re-  
enacted events connected with the  
founding of San Francisco.

GANG OF ROBBERS IN  
WISCONSIN AT BAY

Minneapolis, Wis., Oct. 21.—The rob-  
bers who dynamited the bank of Mc-  
noka yesterday, getting several thou-  
sand dollars, are at bay near  
Bradley. A telegram for reinforce-  
ments was received here this morn-  
ing and additional armed men are on  
their way to Bradley.

The gang blew the bank to pieces,  
firing seven charges of dynamite be-  
fore the vault yielded. The door was  
blown across the street and money  
was scattered on the ground.

CLEANING FEATHER BEDS.

During the hottest season of the  
year the beds should be cleaned, es-  
pecially feather and felt beds. Place  
them on chairs in the yard to get  
the free circulation of air on all sides  
and turn them over to get all sides  
to the sun. Few persons who know  
when and how to clean bedding and  
blankets ever do so until the sun is  
sufficiently hot in the summer months  
to dry the bedding and purify them.  
Even if blankets do not need wash-  
ing, they should be hung in the sun.  
Place all cushions on the line and  
give them an airing for dampness will  
often mould the feathers.

TO CLEAR MUDDY WATER.

If the water from the hydrant is  
muddy or has the confusion in it  
great, for the washing must be done.  
While muddy water boiled with lye  
will bring the scum to the top, often  
lye can not be used because it will  
fade print materials. If you will make  
a bucketful of corn meal, mix a hand-  
ful of alum and stir this into the water  
when the meal settles it will carry off  
all impurities with it and leave the  
water clear. A jar of muddy water can  
be purified in this way so that it will  
be fit to drink.

## He Is Found Dead in a Room, Penniless and Alone

Hastings, Neb., Oct. 21.—Francis  
Schlatter, who claimed to cure ills by  
divine power, was found dead in a  
room at the Hastings hotel in this  
city today. Doctors say he died of old  
age. He was widely known.

Schlatter was practically penniless.  
He had been in this place for about a  
month. Thousands of newspaper clip-  
pings, describing his visits to Boston,  
Denver and other cities, were found in  
his room.

Unless relatives or friends claim the  
body, it will be turned over to the  
state medical college.

Francis Schlatter, as he was known  
in the central west, made his first ap-  
pearance as a healer among the Mex-  
icans of New Mexico in 1895. A  
Mexican girl, crippled, deformed and  
sickly, had been put aside by her fam-  
ily. To the mother of the girl came a  
strange man with a spreading beard,  
long hair and kindly eyes. He offered  
to cure the child and the next day the  
child was walking upright, cured of  
her affliction. At least, such was the  
story spread.

Others came to the healer. Diseases  
that had baffled the physician ap-  
peared to depart under the touch of  
this strange person. People from dis-  
tant points began coming to him, and  
Schlatter finally started for Albu-  
querque, and when he reached there,  
he found that his fame had preceded  
him. Up to this time most of his pa-  
tients had been Mexicans, but now  
Americans came seeking his aid. His  
healer was ultimately spread by the  
telegram and he went to Denver.

There Schlatter began a fast that  
lasted forty days. All the while he  
continued to heal. Persons of all  
classes gathered in such numbers that  
the dealer was unable to accommo-  
date them in his house, and they  
passed before him as he stood upon  
the porch.

He would lean over and take the  
head of the patient, while he prayed  
with each one. He also blessed hand-  
kerchiefs, caps and other articles to  
be used as instruments of healing.  
People literally came by the thou-  
sands.

He refused to take money and gave  
credit for his work to "The Father.  
It is not I who does it."

Later Schlatter was credited with  
having claimed to be the reincarna-  
tion of Jesus Christ.

MUCH MEAT IS  
CONDEMNED IN COUNTRY

Washington, Oct. 21.—"More meat  
is condemned as unfit for human food  
in the United States than in any other  
country. The fact may account, in a  
contributory way, for the present  
high prices of meats." This state-  
ment was made today by a responsi-  
ble official of the department of agri-  
culture in connection with the  
California volunteer during the  
Spanish-American war, carried the  
huge American flag which was made  
for the Hudson-Fulton celebration.

The distinguished guests of the  
city, including foreign consuls, may-  
ors of other California cities and other  
officials rode immediately behind  
Don Gaspar de Portola and Queen  
Vergilia, each of whom was borne in a  
separate chair. The band, led by  
the passing of the parade, in-  
terest was centered on the Old Mis-  
sion Dolores, the first church found-  
ed in northern California. Here the  
Franciscan Fathers, successors of the  
Padres, who founded the mission, re-  
enacted events connected with the  
founding of San Francisco.

"Approximately there are eight hun-  
dred packing houses in the country,  
the output of which is inspected thor-  
oughly by trained veterinarians of  
this department. In addition we have  
three travelling inspectors who direct  
the work of the packing house inspec-  
tors with a view to seeing there is  
no carelessness and no shirking of  
duty."

"This rigid inspection has cost the  
packers of the country millions of dol-  
lars not only in the construction and  
maintenance of their plants in a per-  
fectly sanitary condition, but also in  
the cost of animals which are con-  
demned by reason of disease. We  
know nothing here about Mrs. Crane's  
charges but whatever they are and  
against whom they may be di-  
rected they will be investigated thor-  
oughly, for only by such thorough in-  
quiry are we able to maintain the high  
standard of excellence of American  
packing house products."

TWENTY-FIVE DROWNED

Constantinople, Oct. 21.—Twenty-  
five persons were drowned today, fol-  
lowing the bursting of a dam at Lan-  
derkos, thirty miles northwest of this  
city. The lake supplies water for the  
capital.

GREAT FIGHT AGAINST  
TUBERCULOSIS BEING WON

Washington, Oct. 21.—The great  
fight against tuberculosis is being  
won, according to Chief Statistician  
Crosley L. Williams, the division of  
vital statistics, United States census  
bureau. In a bulletin issued today,  
based on the annual returns of deaths  
from the registration area of the  
United States, he says:

"It is probable that the great at-  
tention that has been given to this  
disease through the international con-  
gress on tuberculosis, held in Wash-  
ington in 1908, and the organization of  
many state and local societies, has al-  
ready begun to have its effect upon  
the mortality from that disease, and  
a continued decline in the death rate  
from it from year to year may be ex-  
pected."

## "Mérode" Underwear

FOR WOMEN AND CHILDREN

Mérode underwear has  
always been made to fit  
the form most closely, the  
materials used in the fin-  
ish, and perfection of  
lines have received the ap-  
proval and recommenda-  
tion of modistes.

perfect fitting gowns, we  
carry all fabrics, every  
shape and size suitable  
for all climates.

Those described below  
are worth consideration.

"Mérode" Underwear will be found especially  
adapted to the new demands on underwear both in tex-  
ture and fit. The prevalent style of dress requires that  
underwear should lie snug to the form without binding  
and permit the garment to rest without wrinkle.

Buttons, Tapes, Silk Crocheted Edges, Smoothness of  
Seams, Finish of Cuffs, Gussets, Shaping and Fabrics, all  
fashioned with but one idea in view—To make this un-  
derwear the most satisfactory that experience could de-  
vise.

## BURT'S

Aged until the "body" is  
just right

—those who drink Becker's Beer  
often remark that it has such a rich,  
thick, wholesome "body"

—some beers you drink are "thin"  
and "watery"—they have no "body"

—the reasons are simple

—in making Becker's Beer we do  
not "skimp" the grain; the pure dis-

Dr. J. S. Leonhardt, of Lincoln, Neb.,  
the celebrated specialist, who has  
studied every phase of piles, says:  
"Piles can't be thoroughly cured by  
ointments, nor any other outside

Politics Mixed—W. W. Billings, a  
prominent business man of Provo, is

that the political sky in the Garden

result at the polls is very uncertain.  
There is no chance for fusion between  
the Republicans and Democrats, which  
means that the Independents will  
have a decided advantage. As a mat-  
ter of fact, in the opinion of Mr. Bil-  
lings, the people are so confused by  
virtue of the third party movement  
that it is difficult to determine just  
how they are going to voice their  
sentiments on prohibition.

Funeral of Mrs. Coleman—The fu-

presiding. Music was furnished by  
the Tabernacle choir, Prof. Joseph  
Ballantyne, leader, and appropriate  
songs were rendered by Mrs. Tillie  
Poulter, Miss Maud Belnap and Mr.  
Marriott. The speakers were Bishops  
Ridges, Ensign and Jacobs and Elders  
Crichtlow and Dankers. The floral  
offerings were many and beautiful. The  
Ladies of Woodcraft conducted the  
services at the grave, where Mrs.  
Mary Farley sang a solo. The grave  
was dedicated by Elder James Ballan-
